Week 10 Report

Subject: Fabric Experimentation and Learning Environment (FELE) March 20th to March 27th weekly report

Authors: Sooraj Sivadasan Nair, Thomas Pulickal Joseph

Body:
In the 10th week, the team worked on the local org API. Some of the local org apis included the local org creation, getting local users, adding a local user etc. The team also worked on creating a Draft for the FELE Poster. The team also worked on generating certificates to store in the well when enrolling a fele user.

Accomplished Tasks:
1. Developed local org api to create local organization.
2. Developed local org apis to list channels, networks and users.
3. Developed local org api to add certificate to wallet.

Planned Tasks:
1. Finalize the draft of the poster with the mentioned changes by Dr. Sha and Dr. Yue
2. Finalize the enroll and register fele user endpoints
3. Create Modal screens for the client application
